# Buyer profile

## What is their business?

Kreber BV is a modern company that, for more than a hundred years, has focused on the engineering and construction of heavy machinery and contract manufacturing of machine parts to the petrochemical, offshore and food industry. Kreber makes its own products, develops products in collaboration with international customers or creates customer-designed machine parts. Kreber has been an independent family business since 1902 and currently employs about 40 people.

## What are they looking for?

Kreber has the ambition to expand their activities into more sustainable sectors; the clean tech industry as one of their main focus points. Basically, Kreber is looking for SME's that have specific/customized process technologies that need to be implemented in industrial equipment solutions. In this respect, SMEs with a proven concept in need of stepping up to industrial scaled and manufactured products would be highly interesting.

Kreber is specifically interested in equipment solutions that increase efficiency in the following activities:

- Offshore mechanical constructions / tools for wind energy
- Energy storage
- Hydrogen (storage)
- Wind energy

If you are interested in this opportunity, please contact **Tara van de Lagemaat** by sending an email to [t.vandelagemaat@cleantechdelta.nl](mailto:t.vandelagemaat@cleantechdelta.nl) and briefly indicate the interest of your company in the Buyer's case. You can also contact your regional SCALE-UP partner.

## SCALE-UP PARTNERS

This Meet the Buyer event is an exclusive invitation for companies associated with the partner organisations in the North Sea region. Cleantech member organisations have joined forces in the Interreg SCALE-UP project to enable cross-border business contacts between SMEs with green solutions and established large companies. The overall aim is to facilitate for innovative cleantech companies to scale up your start-up. Consultants at the member organisations help participants prepare the meetings and support them through the business process.
